---

SCIENCE SAYS…
"The birth of a human really occurs at the moment the mother's egg cell is fertilized by one of the father's sperm cells, that is, at conception."
–LIFE Magazine, The Drama of Life Before Birth

"It is scientifically correct to say that an individual human life begins at conception."
– Professor M. Matthews-Roth,
Harvard University Medical School

MISSING the POINT...
"When men promote abortion for their partners it is typified as coercion, lack of caring, insensitivity and selfishness. When women choose abortion, it is the exclamation of women's rights, an affirmation of the right to health and freedom from male oppression, and a confirmation of sovereign territoriality over the female body and reproductive functions." – Vincent Rue, PhD
– a BABY will DIE!

Thank you

To Blenheim Baptist church ladies:
Thank you so much for every effort around the memorial service for Bob. His membership and activities at the church meant so much to him and many blessed memories!
Janet Forsyth

"It's easy to say thank you, but it's harder to convey the heartfelt gratitude felt today. Your thoughtfulness means more than words can ever say."

Notes

Focus of the week
